

MODULES TO WORK

Prefabricated, adaptable office spaces that can be easily assembled, disassembled, and reconfigured to meet changing business needs, offering flexibility and cost-effectiveness.

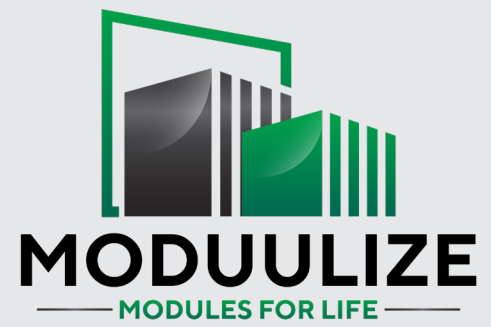

Our Modular Buildings offer versatile solutions that can be used to create any size modular structures for offices or work spaces in a commercial setting.

By simply omitting wall panels and installing partition walls, any room size can be quickly configured to meet your specific needs. These modular buildings can be equipped with a wide range of facilities, from spacious canteens, sophisticated office layouts, with kitchens, toilets and high-end showers.

Additionally, they are perfect for compact and adaptable site kiosks, providing flexible solutions for various environments and purposes.

MODULES FOR LIFE

MODULAR FEATURES

- ▶ **Value:** Workspace modules are supplied complete and ready to assemble, offering an incredibly cost-effective workspace solution. Their efficient design ensures exceptional value for money, making them a top choice for budget-conscious buyers.
- ▶ **Insulation:** The 80mm sandwich wall panels with a R21 PU Foam core provide superior insulation, helping to minimize heating costs and keeping the space free from cold and drafts, ensuring a comfortable living or working environment.
- ▶ **Compliance:** All units are manufactured to meet CE certification and Eurocode standards in a rigorously quality-controlled factory setting, certified by ISO 9001:2000 for exceptional quality assurance.
- ▶ **Rapid Assembly:** Designed for quick and easy assembly.. The structures are built to last, with a design life of 30+ years and a one-year guarantee for added peace of mind.
- ▶ **Attractive Design:** Thoughtfully designed finishes, with sharp attention to detail, result in aesthetically pleasing buildings that can blend seamlessly into any environment, offering both functionality and curb appeal.
- ▶ **Safe & Secure:** Built with a robust steel frame, rigid sandwich panel walls, secure doors, and double-glazed windows, these units offer a high level of safety and security.
- ▶ **Transportable:** These modules are fully portable, designed to be flat-packed, which significantly reduces transport costs. They don't require foundations and can be easily moved from one location to another, making them an ideal solution for portable offices or temporary buildings.
- ▶ **Modular:** The modular design allows for multiple units to be arranged in clusters or stacked to create large, complex volumetric buildings, offering endless possibilities for customization and expansion to meet expansion needs.
